Seal Shield™ Cleanwipe™ SSKSV099V2DE

schwarz, USB

noble and chic design!

The Seal Shield products are not only splash-proof, but also completely waterproof. Protected to IP 66 and tested to NEMA 4X standards, they provide the necessary safety. Simply clean with soap, washing-up liquid or detergent. The unique SEAL CAP technology protects the connections from water penetration.

Coke, crumbs, coffee or stubborn dirt - the Seal Shield keyboards and mice can also be simply put into a standard dishwasher. Switch off heat drying, set to up to 60 degrees and off you go. Thanks to etching, the inscription is retained.

The efficient effect of Seal Shield products is based on a newly developed antimicrobial technology of the plastic. This destroys the cell nucleus of the bacteria and inhibits their growth.

Technical data

System

manufacturer	Seal Shield™
model	SSKSV099V2DE
interface	USB 2.0
color	black
number of buttons	99
liaison	corded
cable's length	1,83 m
splash-proof	yes
protection class	IP 66
disinfectable	yes
antibacterial	yes
