Dockingstation USB-C 85 W

I-Tec

Excellent performance, universal connectivity

Increase your efficiency by simply connecting the Docking Station to your notebook or tablet PC with a single cable. You gain access to the power supply (it applies to the connection via Thunderbolt 3; when connecting via USB 3.0 it is not technologically possible to charge a notebook) of up to three screens with 4K resolution, if necessary of one screen with 4K resolution and one screen with 5K resolution. Five USB 3.0 ports and one USB C port allow you to connect all your favorite accessories. Thanks to this docking station, you don't have to plug and unplug your devices every time you take your notebook or Tablet PC with you. The advantage is also a larger order on the worktable, which avoids the confusing cable chaos. Both connection options (USB-C cable to C, USB-C adapter to A) are included in the scope of delivery.

Scope of delivery:
- i-tec USB-A 3.0 / USB-C Docking Station
- Cable USB-C 3.1 to USB-C (100 cm)
- Cable USB-C 3.1 to USB-A (100cm)
- Power Adapter (DC cable 160 cm)
- Quick Start
