Barcodescanner Frame Pokini Tab A8B

Tailored for the Pokini Tab A8B, the bar code scanner frame features PRZM Intelligent Imaging technology, industry-leading decoding algorithms and advanced focusing.

Barcodes can be captured at close range and at a distance of more than 60 cm. The wide display panel allows large barcodes to be read nearby and multiple barcodes to be captured.

Ideal for retail, manufacturing and warehouse management.

Technical data

Highlights

• ergonomic design

• up to 76 cm scanning distance

• perfect grip: can be used left- or right-handed

• two large trigger buttons on each side

• Barcode scanner engine: Zebra SE4710
