Dockingstation USB-C

I-Tec

USB-C docking station with support for up to three external 4K displays, supporting any Windows 10 laptop. The latest built-in DL 1.4 protocol also supports 5K/60 Hz, making this docking station an ideal companion for professional graphic designers, data analysts, movie editors or high-definition video lovers.

Simply connect your laptop or tablet (no driver installation required) and enjoy fast data transfer rates of up to 10 Gbps via USB 3.1 or USB-C ports. Charge your smartphone or tablet via the built-in USB port with up to 10W of charging power.
