Cyberpower UT850EG Schuko

850VA / 425W

Cyberpower UT Utility Series ensures power protection for IT equipment such as computers, NAS and network devices. Designed in line interactive topology with automatic voltage regulation (AVR), it provides stabilized and regulated output power supply.

Technical data

Name	UT850EG
Manufacturer	Cyberpower
Design	Tower
Technology	Line Interactive
Input voltage (Vac)	230 ± 10%
Rated input current (A)	3.69
Input connector type	Schuko
Power (Va)	850 (VA)
Power (Watt)	425 (Watt)
Outputs	3
Output connector type	Schuko
Switching time	4
LED indicators	Yes (Operation Status, Mains Operation, Battery Operation, Bypass Operation, Low Battery, Overload, UPS Fault)
Audible alarms	Yes (Battery operation, Low battery status, Overload, UPS fault)
Dimension (WxHxD) in mm	84 x 174 x 280
Warranty period	2 years (battery 2 years)

Highlights

- Energy saving technology
- Generator Compatible
- Overload protection
- Phone / Fax / Modem / DSL / Network protection
- USB communication port
- EMI and RFI filter
- Automatic Voltage Regulation (AVR)
- LED status indicator
- Overvoltage and lightning protection
- High speed Ethernet data transmission
