19V Aktiv-Modul für passive FS12L KFZ-/Fahrzeughalterung

Secure Grip, Reliable Power.

The 19V Active Module is the perfect complement to the passive FS12L vehicle mount. It provides a variety of interfaces, including 2x USB 2.0, 1x RJ45, and 1x Serial (RS232), ensuring optimal connectivity. With a voltage of 19V, it delivers reliable power to your devices. Please note that the power supply is not included. Ensure that the module is only compatible with FS12L and cannot be used with FS12-K or older models.
