Seal Shield™ Seal Clean™ SSKSV208DE

schwarz, USB

waterproof - antimicrobial - dishwasher-safe

Unfortunately it is unappetizing, but as a fact not to be dismissed: A normal PC keyboard has up to 400 times more bacteria than a toilet seat. This assertion is by no means exaggerated, because it gives us information about the degree of contamination of a PC keyboard at any workplace. Whether on the desk at home or in commercial use, PC keyboards and PC mice are the source of a wide variety of germs and thus also a serious source of contamination.

The Silver SEAL keyboard offers excellent input comfort with high resistance against liquids and impurities, because the antimicrobial effect of Silver SEAL products is based on the addition of a nano-substance in the plastic. This contains silver ions that destroy the cell nucleus of the bacteria and inhibit their growth.

The Silver SEAL is used where a minimum of responsibility for hygiene is required (e.g. catering area, public service area (counter, self service, personal workplace), hospitals and medical practices (doctors, dentists, therapists), pharmacies and laboratories,...).

Technical data

System	
manufacturer	Seal Shield™
model	SSKSV208DE
interface	USB 2.0
color	black
number of buttons	105
liaison	corded
cable's length	1,83 m
hint	15cm Quick Connect Seal Cap™ with 1.83m USB extension cable
splash-proof	yes
protection class	IP 68
disinfectable	yes
antibacterial	yes
dishwasher-safe	yes
hint	for all commercial dishwashers up to 60°C (heat drying must be deactivated)
layout	German
numeric keypad	yes
caret	yes
compatibility	Windows, Mac OS X
cycles of operation	approx. 10 million per key
lettering	UV printing
operating temperature	0°C to 60°C
housing material	Plastic
weight	802 g
dimensions (WxHxD)	459 x 174 x 35 mm
guarantee	2 years Bring-In

Highlights

- 100% waterproof and dustproof (IP68, NEMA 4X)
- dishwasher safe (for all commercial dishwashers up to 60°C)
- Plastic housing with antimicrobial surface
- disinfectable
- Protection of the electronics through silicone coating
- ergonomically designed keypad with 105 keys
- Standard keyboard layout (German, including numeric keypad)
- Seal Cap - USB protective cap
- narrow form factor
- Convenient operation of a conventional PC keyboard
